

Hi Everyone

It's that time again, the June UJUG meeting is next week, Thursday June 18th, starting at 5:30 PM. As you may know, we are now meeting at the **IHC Intermountain Medical Center** in **Murray**, across the street from Costco. You can find a map, directions and some great pictures (put together by Don Bogardus) here, on the UJUG website.

This month we have **Sean Landis** and **Ian Robertson** presenting their JavaOne talk, **Java for the Web! Now What? Choosing the Right Technology Stack for Your Java-Based Web Site**. The next presentation is by **Jevgeni Kabanov** of **zeroturnaround** talking about **"How to stop waiting for build/deploy and enjoy coding again"** - Also known as **"Watching the logs roll by"**. Oh yeah, did I tell you this is the month of presentations with long titles ;-) For more detail on this month's meeting, check out the meeting page on ujug.org.

Make sure you RSVP so we purchase enough pizza and soft drinks. The URL to RSVP is http://www.ujug.org/web/index.php?option=com_attend_events&task=view&id=25.

Why don't you invite a co-worker or friend to this month's meeting? If you find the UJUG informational and/or fun, not to mention a great place to get some free food on a Thursday night, why don't you spread the word? You never know, you or your friend might just win something another Java T-Shirt, Java related book, iPod or something else from the UJUG tickle trunk.

Following the presentations and after we've given out the door prizes, we will have the following breakout:

Java Certification – Don Bogardus

SCJP Certification is a great way to strengthen your fundamentals and demonstrate a breadth of knowledge to employers. The 5.0 exam is a tough beast, and we discuss all the tricks to tame it. Each month we'll review another section of the Sierra/Bates Study Guide (ISBN: 0072253606). This month (June) we'll be covering Chapter 7 - Generics and Collections, the most useful and interesting chapter in the book. Newcomers are always welcome.
