

Hi Everyone

I'd like to apologize for all the email you received yesterday. The UJUG server was having some issues with sendmail. When I tried to send email last week and it did not get delivered I incorrectly assumed mailman had deleted the email. Once I found out sendmail was down and restarted it, mailman flooded your inbox with my old emails.

Just to clarify, the November UJUG meeting is **THIS Thursday, November 20th** starting at **5:30 PM**.

Make sure you RSVP so we purchase enough pizza and soft drinks. The URL to RSVP is [http://www.ujug.org/web/index.php?option=com\\_attend\\_events&task=view&id=19](http://www.ujug.org/web/index.php?option=com_attend_events&task=view&id=19)

You are not going to want to miss this months presentations on **Advanced Java**, presented by Ian Robertson, and **Hibernate Search**, presented by **Hibernate Search committer, John Griffin**. For presentation abstracts and presenter bios, check out the November page on ujug.org: <http://www.ujug.org/web/content/view/115/1/>. We also have a couple of breakouts you might want to check out: *Java Certification* and *Alternative Languages on the JVM*.

This months door prizes include:

- *Atlassian T-Shirts* <<http://www.atlassian.com/>>
- *TekSystems Bag*
- *JavaRebel license* <<http://www.zereturnaround.com/javarebel/>>
- *IntelliJ license* <<http://www.jetbrains.com/idea/>>

For a detailed agenda, check out the UJUG website: <http://www.ujug.org/web/content/view/115/1/>

TTYL

Chris
