

Hi Everyone

It's that time again, the September UJUG meeting is next week, Thursday September 17th, starting at 5:30 PM. **For this month ONLY**, we are meeting at the **IHC Lake Park facility** in **West Valley City**. You can find a map and directions here.

This month we have **Harold Carr** talking about *Metro* followed by **Bryan Hansen** and Me (**Chris Maki**) talking about *Building a Java Stack*. You can find out more about Metro here. For detail on this month's meeting, check out the meeting page on [ujug.org](http://ujug.org).

Make sure you RSVP so we purchase enough pizza and soft drinks. The URL to RSVP is [http://www.ujug.org/web/index.php?option=com\\_attend\\_events&task=view&id=28](http://www.ujug.org/web/index.php?option=com_attend_events&task=view&id=28).

Why don't you invite a co-worker or friend to this month's meeting? If you find the UJUG informational and/or fun, not to mention a great place to get some free food on a Thursday night, why don't you spread the word? You never know, you or your friend might just win something like another Java T-Shirt, Java related book, iPod or something else from the UJUG tickle trunk.

### Agenda

- \* 5:30 - 6:00 Pizza
- \* 6:00 - 7:00 Harold Carr – Metro
- \* 7:00 - 8:00 Bryan Hansen/Chris Maki – Building a Java Stack

### Upcoming UJUG Meetings

Here is a quick preview of the upcoming UJUG meetings for 2009 (please note, these are all tentative and subject to change), you can find a complete schedule for 2009 here:

- \* October 2009 – An evening with the creators of **Maven** - Jason van Zyl and Brian Fox
- \* November 2009 – **JRuby** – Mike Moore, **Android** – Glen Lewis
- \* Wow, the next meeting is January 2010!

Okay, enough of my rambling, here is an overview of what will be happening this month:

## Breakouts 8:00 - 9:00

Following the presentations and after we've given out the door prizes, we will have the following breakout:

### Java Certification – Don Bogardus

SCJP Certification is a great way to strengthen your fundamentals and demonstrate a breadth of knowledge to employers. The 1.5 exam is a tough beast, and we discuss all the tricks to tame it. Each month we'll review another section of the Sierra/Bates Study Guide (ISBN: 0072253606). By popular demand, this month we'll be doing mock exam questions for Chapters 1-3 (These are original questions not found in the book). We'll have everyone attempt a few questions, then go over the answers as a group. Newcomers are always welcome.

### Chris Hansen – `java.community.events`
